

RGB 360° lighting tube

VERAtube*

TECHNICAL DATA

Diode type	13 × RGB (100 mm of pixel pitch)
Protocol	WS2818
Channels	39 (DMX)
Connectivity	JST-SM 4-pin
Pinout	Red (+24V); Green (data); Blue (data backup); White (GND)
Effects	wide range of dynamic pixel effects depending on the lighting controller and control system
Power supply	24 V DC
Current consumption	580 mA (maximum); 35 mA (stand-by)
Power consumption	14 W (maximum)
Housing	milky / opal
Length	130 cm
Protection	IP20 (indoor)
